

NO NEW ICE JAILS IN GA

The Department of Homeland Security is planning to purchase warehouses in 23 US cities to turn them into jails to **kidnap, cage, and disappear** immigrants. The government wants to deport 1 million people a year here on out.

Right now, there are **75,000 people in ICE custody**, which is a new record. The additional 23 sites would give the agency another 76,500 beds, bringing the **total number to over 150,000**. The ICE director aims to make these detention centers “like Amazon...but with people.”

Two new ICE warehouse prisons could open in GA in <60 days.

The warehouse in Social Circle, GA could hold 10,000 people, almost double the capacity of the largest current ICE detention center. The facility in Oakwood, GA plans to hold 1,500 people.

Georgia already ranks fourth in deportations among all states

GA is already home to several detention centers, all of which have seen preventable deaths, sexual and physical abuse, medical neglect, and other human rights violations.

They will come for our neighbors to meet their fascist quotas...
BUT WE CAN STOP THEM. — *Join the movement!*

Weekend of Action! 3/20-3/22

No New Ice Jails Georgia is an ad hoc network of people building a movement to stop the warehouses, get ICE out of GA, and, ultimately, off all US streets. We are calling for a weekend of action, March 20-22. Organize where you are!

Get your crew, get your organization, get your neighbors, and plan an action, demonstration, workshop, vigil, benefit show, etc! Email upcoming events to ICEoutGA@pm.me
